Teaching, Rabbinical Experience and Leadership Challenges

1998-2016 Teacher and student advisor in the Me'orot Ha'Torah Yeshiva in Telshe Stone, an educational framework for graduates of *Yeshivot Tichoniot* with a weak background in intensive Talmudic study. Position entails reaching out and drawing the boys into a vibrant Torah experience by forming close bonds with the students in learning as well as through counseling and personal mentoring.

1988-1996 Member of the Yechi Re'uven Community Kollel in Giv'at Ze'ev. Position entailed fostering learning partnerships with members of the community and guidance in enhancing their application of Torah ideals.

In the above frameworks, and especially in the Community Kollel, a strong personal connection developed between myself and some of the students along with their families. This relationship expanded and assumed the character of serving as their rabbi and life mentor, with all matters of education, domestic harmony, relations with the extended family, etc. **being brought before me for consultation and to obtain my decision, to this day**, even outside the abovementioned frameworks.

2001-2005 Supervision of overseas *shechitah* (ritual slaughtering), a position of weighty responsibility in and of itself, along with additional responsibilities as stand-in rabbi of the team of *mashigichim* (kashrus supervisors), including delivering Torah lectures to the scholarly entourage.
